ENGLISH

We appreciate your choice for a new product from R82 - a worldwide supplier of technical aids and appliances for children and teenagers with special needs. To fully benefit from the options offered by this product you must read this manual before use and save it for further reference.

Intended use

The Crocodile is designed to provide users the ability to be mobile. It will grow along with the user and provide many hours of freedom of movement. The Crocodile is light, easy to dismantle and safe and easy to use when the manual instructions are followed. A wide group of children and teenagers with special needs can use the Crocodile as a posterior gait trainer, for example children with CP, GMFCS level 2-4. The Crocodile is constructed for one user only. It is available in three sizes and is suitable for both indoor and outdoor use.

Declaration of Conformity - CE

This product conforms to the requirements of the Medical Devices Directive (93/42/EEC). The CE mark must be removed when rebuilding the product or when using other than original R82 spare parts and fittings.

R82 Warranty

R82 offers a 2-year warranty against defects in workmanship and materials. The warranty would be adversely affected if the customer's responsibility of servicing and/or daily maintenance is not carried out according to the guidelines and intervals prescribed by the supplier and/or stated in the manual. For further information, we refer to the R82 homepage/download.

The warranty can only be sustained if the R82 product is in use in the same country where it was purchased and if the product can be identified by the serial number. The warranty does not cover accidental damage, including damage caused by misuse or neglect. The warranty does not extend to consumable items e.g. tyres or upholstery, which are subject to normal wear and tear and need periodic replacement.

The warranty is null and void if non-original R82 parts/accessories are used, or if the product not has been repaired or altered according to the guidelines and intervals prescribed by the supplier and/or stated in the instructions for use (IFU). R82 reserves the right to inspect the product being claimed for and the relevant documentation before agreeing to the warranty claim, and to decide upon whether to replace or repair the defective product. It is the customer's responsibility to return the item being claimed for under warranty to the address of purchase. The warranty is given by R82 or, subsequently, an R82 dealer.

ENGLISH

Symbols

For indoor and outdoor use
When the user is moved in the product from one room to another or to an outdoor area, please ensure that the area is flat and without any obstacles. Never leave the user unattended in this product

Assembly and adjustment
Instruction on how to assemble and adjust the product

Consult instructions
The latest versions of the instructions are always available on the R82 website and can be printed in larger sizes

Caution
Incorrect use of the product may cause serious damage to the product and the environment and may cause injury

Caution
Be careful not to get your fingers caught

Attention
Keep away from children

Inspection
Carry out inspections frequently

Cleaning
Keep clean to maintain optimum function

Disposal -

When a product reaches the end of its lifetime, it should be separated by material type so that the parts can be recycled or disposed of properly. If required, please contact your local dealer for a precise description of each material. Please contact your local authorities to be informed of the options available for recycling in an environmentally-friendly way.

ENGLISH

Safety -

Signs, symbols and instructions placed on this product must never be covered or removed and must remain present and clearly legible throughout the entire lifetime of the product. Immediately replace or repair illegible or damaged signs, symbols and instruction. Contact your local dealer for instructions.

Carer	
	Read all of the instructions carefully before use and keep them for future reference. Incorrect use of this product may cause serious injury to the user
	Always use the correct lifting techniques and aids for this purpose
	Never leave the user unattended in this product. Ensure permanent supervision by an adult
	Repair/replacements must only be made using new original R82 spare parts and fittings and carried out in accordance with the guidelines and service intervals prescribed by the supplier
	If there is any doubt as to the continued safe use of your R82 product or if any parts should fail, stop using the product immediately and contact your local dealer as soon as possible
Environment	
	For the purpose of safety and comfort, always move the product away from the sun and allow to cool before use
	Use this product on a level surface without any obstacles
	When using on inclines, please refer to the specifications on page 99
User	
	If the user is close to the max. load limit and/or has a lot of involuntary movements, e.g. rocking, a larger size with a higher max. load or a different R82 product should be considered
	Be aware of the child's capacity to exceed walking speed or ability to complete sharp turns, which may cause the product to become unstable
Product	
	Carry out all positional adjustments on the product and accessories and ensure that all knobs, screws and buckles are securely fastened before use. Keep all tools out of the reach of children
	Activate the brakes before placing the user into the product
	Activate the anti-tip when the product is being used on inclines
	Ensure the stability of the product is maintained before placing the user in it
	Ensure the wheels and tyres are fully-functional and secure before use
	Inspect the product and all of its accessories and replace any worn out parts before use
	This product is not to be occupied in a motor vehicle. The user must be positioned in a vehicle seat and the product must be stored in a luggage compartment
	The user must not occupy the product while it is being transported into or out of a vehicle by a tail lift

Maintenance responsibilities table

Maintenance of a medical device is wholly the responsibility of the owner of that device. Failure to maintain a device in accordance with the instructions may invalidate the device's warranty. Furthermore, failure to maintain a device may compromise the clinical condition or safety of users and/or their carers.

Frequency	Description
1st Day	Read the instructions for use (IFU) carefully before use and store them in a safe place for future reference
	If required, purchase a tube of "touch-up" paint to cover scratches and chipped paint
	Store the enclosed tools on/at the product
Daily	Use a dry cloth to clean the product
	Visual inspection. Repair or replace any damaged or worn-out parts
	Ensure that all fasteners are in place and fitted correctly
	Check all fittings and buckles for signs of worn out parts
	Be aware of any max mark indications before adjustment
Weekly	Check that all castors are moving freely and that all wheel locks/ brakes are easily activated
	Check that the angle mechanism functions correctly and that the safety lock is working correctly
	Wipe off any residue and dirt from the product using a cloth with warm water and a mild detergent and dry before use
Monthly	All nuts and bolt on this product must be checked and tightened to avoid unnecessary failures
	Oil the swing-away parts. We recommend you use a professional lubricant system, e.g. Veidec Dry Lube
Annually	Inspect the frame for cracks or signs for worn-out parts and carry out annual service. Never use a product which appears to be sub-standard or faulty

Accessories and spare parts

The products from R82 can be supplied with a variety of accessories which comply with the needs of the individual user. Spare parts can be ordered on request. Find the specific accessories on our website or contact your local dealer for further information.

Service interval

A detailed inspection of the product must be made every 12 months (every 6 months for heavy users) and every time the product is reissued for use. The inspection should be carried out by a technically competent person who has been trained in the use of the product.

The lifetime of this product in normal use is 5 years if all maintenance and servicing is carried out in accordance with the manufacturer's instructions and demonstrably recorded.
